

Design-In Tools Website

<https://designintools.intel.com>

Internet Explorer settings using Design-In Tools webstore.

IE on Design-In before fix.

The screenshot shows the Intel Design Tools website in Internet Explorer. The browser's address bar displays <https://designintools.intel.com/>. The website header includes the Intel logo, a "Menu" button, and navigation links for "Home", "Intel.com", "About Us", and "Cart". There are also links for "Login" and "Customer Service".

The main content area features a large blue banner with the heading "Design Reviews". Below this heading, the text reads: "Verify your motherboard design with dedicated Schematic and Layout reviews from Platform Experts." A blue button labeled "Find Tools" is positioned below the text.

To the right of the text is a technical schematic diagram of a motherboard circuit, with a magnifying glass highlighting a specific section of the circuit. Below the banner, a blue box contains the text: "Design-In Tools specializes in Streamlining High-Efficiency Motherboard Validation & System Design Tools for".

Settings → Compatibility View Settings

The screenshot shows the Intel Design Tools website in an Internet Explorer browser window. The address bar displays `https://designintools.intel.com/`. The website header includes the Intel logo, a 'Menu' button, and navigation links for 'Home', 'Intel.com', 'About Us', and 'Cart'. A right-click context menu is open, showing various options. The 'Compatibility View settings' option is highlighted. The main content area features a 'Design Reviews' section with the text 'Verify your motherboard design with dedicated Schematic and Layout reviews from Platform Experts.' and a 'Find Tools' button. To the right of the text is a schematic diagram of a motherboard layout with a magnifying glass over a specific component. Below this, a blue box contains the text: 'Design-In Tools specializes in Streamlining High-Efficiency Motherboard Validation & System Design Tools for'.

About Internet Explorer

Compatibility view settings window

The image shows a Windows browser window with the 'Compatibility View Settings' dialog box open. The dialog box has a title bar 'Compatibility View Settings' and a close button. It contains a section 'Change Compatibility View Settings' with a sub-section 'Add this website:' featuring a text input field and an 'Add' button. Below this is a list of 'Websites you've added to Compatibility View:' with 'intel.com' listed and a 'Remove' button. At the bottom, there are two checkboxes: 'Display intranet sites in Compatibility View' (checked) and 'Use Microsoft compatibility lists' (unchecked). A link to the 'Internet Explorer privacy statement' is provided, along with a 'Close' button.

The background is the 'designintools.intel.com' website. The browser's address bar shows the URL. The website has a navigation bar with 'Home', 'Intel.com', 'About Us', and 'Cart'. A large blue banner features the text 'Design Reviews' and 'Verify your motherboard design with dedicated Schematic and Layout reviews from Platform Experts.' Below this is a 'Find Tools' button. To the right is a technical schematic diagram of a motherboard layout with a magnifying glass highlighting a specific component. At the bottom, a text box states: 'Design-In Tools specializes in Streamlining High-Efficiency Motherboard Validation & System Design Tools for'.

Compatibility view settings window

The image shows a Windows browser window with the address bar displaying `designintools.intel.com`. A "Compatibility View Settings" dialog box is open in the foreground. The dialog has a title bar with a close button. Inside, there is a section "Change Compatibility View Settings" with a list of websites added to Compatibility View. A "Remove" button is circled in red. Below this, there are two checkboxes: "Display intranet sites in Compatibility View" and "Use Microsoft compatibility lists", both of which are also circled in red. A "Close" button is at the bottom right of the dialog. The background website has a blue header with navigation links: "Home", "Intel.com", "About Us", and "Cart". The main content area features a large blue banner with the text "Design Reviews" and a magnifying glass over a circuit diagram. Below the banner, there is a "Find Tools" button and a section titled "Design-In Tools specializes in" followed by the text "Streamlining High-Efficiency Motherboard Validation & System Design Tools for".

Design-In Tools website storefront

The screenshot shows the Design-In Tools website storefront. The browser address bar displays <https://designintools.intel.com/>. The website header features the Intel logo, a "Menu" dropdown, and the "Design-In Tools Store" title. Navigation links include "Home", "Intel.com", "About Us", and "Cart (0) \$0.00". A search bar is located on the right. The main navigation bar lists "Tools & Services", "Equipment", "Usage Types", and "Build Layout/Tapeout".

The main content area features a large blue banner for "Design Reviews". The text reads: "Verify your motherboard design with dedicated Schematic and Layout reviews from Platform Experts." Below this text is a "Find Tools >" button. To the right of the text is a technical schematic diagram of a motherboard layout, with a magnifying glass highlighting a specific section. Navigation arrows are visible on either side of the diagram.

Below the banner, there are two columns of content. The left column, on a blue background, states: "Design-In Tools specializes in Streamlining High-Efficiency Motherboard Validation & System Design Tools for Digital Professionals." The right column features a photograph of a man working at a computer with the text: "Where are you in the Process? Find the right tool for your next step." Below this text is a "Learn More >" button.

At the bottom of the page, there is a row of three small, partially visible images showing people working.

On the far right edge of the page, there is a vertical banner that reads "EXCLUSIVE DEALS".
